

# Protect Progress. Fund Diabetes Programs.

Federal programs across the NIH and CDC are essential to North Dakota's fight against diabetes. Cuts threaten the research, prevention, and infrastructure supporting the 57,300 adults in North Dakota living with diabetes.<sup>1</sup>

## NIDDK | National Institute of Diabetes and Digestive & Kidney Diseases

**FY 2024: \$657,380**

- The NIDDK provided **over \$650,000** to **one project** in North Dakota.<sup>2</sup>
- Cuts would threaten this nationwide research engine that advances care and improves health outcomes for over 55,000 North Dakotans.

**\$657,380** Supporting  
**1** Project

## DNPAO | CDC Division of Nutrition, Physical Activity, and Obesity

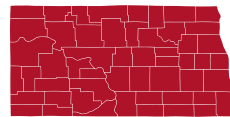

- DNPAO supports essential tools and programs used across the state. Cooperative agreements power statewide efforts to strengthen obesity prevention, enhance early childhood nutrition, expand provider training, and promote healthy communities.<sup>3</sup>

Pediatric Growth  
Tracking Tools

Preventive Health  
Assessments

State Obesity  
Surveillance Maps

Nutrition Education  
and Sourcing

## National DPP | CDC National Diabetes Prevention Program

- National DPP supports diabetes prevention programs for **nearly 2,500 enrollees** offered by **13 organizations** across **7 cities**.<sup>4,5</sup>
- Cuts would disrupt access to evidence-based lifestyle interventions shown to reduce the risk of type 2 diabetes by **58%** in adults and **71%** among seniors.<sup>6</sup>

**2,440** North Dakotans  
across 7 Cities

## DDT | CDC Division of Diabetes Translation

**Current Funding: \$1.1M**

- Cuts would threaten **over \$1M** that supports the North Dakota Department of Health and Human Services in tracking, preventing, and managing diabetes.<sup>4</sup>

**16** Diabetes Self-Management Education  
and Support (DSMES) service providers.  
**10,620** North Dakotans with diabetes  
that have used DDT DSMES.
